

Calculating

4.2

Objective

- Derive and recall all addition and subtraction facts for numbers to 20

Resources

- Whiteboards
- 0 to 20 number cards

Activities

- Ask pupils to choose and write any six numbers between 10 and 20 on the left hand side of their whiteboards.
- Make two piles of cards, one 0 to 9 and the other 10 to 20.
- Turn over one card from each pile, e.g. 3, 14.
- Keep a record of the cards to check pupils' answers later.
- Ask pupils to add or subtract these two numbers.
- If the answer is one of the numbers they have chosen they cross it off.
- The first to cross out all of his/her numbers is the winner.
- Check the winner's answers.
- Maintain a good pace throughout.
